

There's no factual grounds for this politically motivated recall. There's been countless listening sessions open to the public on both sides of this issue.

I continue to protect the fiscal sustainability of Millbrae by supporting local businesses and encouraging new and sustainable funding streams that don't rely on outdated and unsuccessful models to fund public safety, parks and our streets. I represent Millbrae on numerous boards and regional decision making groups that will move our city forward.

As a Red Cross volunteer, a community leader and elected official throughout San Mateo County for over 2 decades I have served as your steward of public trust and championed transparency, and have always responsibly served the best interest of all constituents, not just the loudest.

After overwhelmingly being elected by you, this recall seeks to undo your vote, under the guise of a policy decision that ultimately our city had no control. This recall is not about money, it is about politics and keeping the status quo.

Support a transparent, accessible, experienced voice for you, free from special interest by not signing this petition.

Save our already financially challenged city countless thousands of dollars.

Don't fall for the lies. Don't sign this petition.
