1. INTRODUCTION

The City of Millbrae (the “City”) was founded in 1856, incorporated in 1948 and operates as a General Law City serving a population of over 23,000. The City is located on the California Peninsula, 15 miles south of San Francisco. The boundaries of the City extend roughly from the Bayshore Freeway on the east to Skyline Boulevard on the west. This distance is approximately 1.7 miles. The distance between the north and south City limit line is approximately 2.05 miles. The City provides a full range of services including, but not limited to, sewer utility services.

Millbrae’s sewer utility is a self-supporting enterprise that relies primarily on service charge revenues to meet annual funding needs. The sewer service charge provides funding for sewer system operations, maintenance, debt services and capital improvements to the City’s aging sewer collection system and wastewater treatment plant. Like many Bay Area agencies, the City has a lot of aging sewer facilities including many pipelines that were installed 50 to 80 years ago and will need to be rehabilitated or replaced in upcoming years. The City has identified over \$30 million of high-priority capital improvements needed over the next five years to rehabilitate and replace aging infrastructure, address capacity deficiencies, and improve wastewater system reliability. The City remains committed to operating as cost-effectively as possible while providing safe and reliable sewer service to the community.

Prior to the adoption of Ordinance No. 802, water and sewer services were billed together bimonthly. To bolster consistent receipt of revenues and reduce staff time in preparation of customer billings, the City of Millbrae moved the collection of sewer service charges for all parcels to the County property tax bills commencing Fiscal Year 2023-24. A public hearing will be held on June 24, 2025, during the City Council Meeting, to adopt an Annual Resolution, continuing the collection of service charges in this manner for Fiscal Year 2025/26.

2. SEWER SERVICE CHARGE

The City currently charges the following rate structure for annual sewer service which includes two components.

Fixed Monthly Service Charges: These fixed charges are billed per residential dwelling unit or per account for commercial and other customers.

Quantity Charges: Residential customers are billed based on metered water use during four wet-weather months (Nov-Feb or Dec-Mar depending on billing cycle), a period of minimal outdoor irrigation.

Commercial and other customers are billed based on metered water use during each billing period throughout the year. The City's Quantity Charges are billed in units of one hundred cubic feet (ccf) where one ccf equals approximately 748 gallons.

⁽³⁾ Billed for all metered usage for each month per hundred cubic feet (ccf) multiplied by quantity rate.

3. CLEAN BAY CHARGE

In July 2017, the City replaced the SSO charge with the Clean Bay Fee. The Clean Bay Fee modified charges to reapportion costs between residential customers, multi-family units, and commercial customers. As a result, many customers initially paid less each month compared to their SSO charge. The Clean Bay Fee will remain in effect until the loans and/or bonds associated with sewer improvements are paid in full. The repayment timeline is dependent on the amount and type of debt that the City takes on to fund necessary capital improvements.
